

DEERWALK JOURNAL OF COMPUTER SCIENCE AND INFORMATION TECHNOLOGY
(p-ISSN: 2018/2075; e-ISSN: 2018/7520)

AIMS AND SCOPE

Deerwalk Journal of Computer Science & Information Technology (DJCSIT) is an open access peer reviewed journal. DJCSIT is published annually both in e-copy and hardcopy. The journal focuses and publishes high quality original research papers, review articles and special issues covering all aspects of computer science and information technology. Applications oriented papers containing a deep evaluation of the proposed system(s)/solution(s) may also be accepted.

Computer science and information technology are progressing at a rapid pace; something that was on the frontier a few years ago is no longer relevant today. This becomes possible only through high quality research works by researchers, academicians and other professionals working meticulously in the fields of computer science and information technology. DJCSIT is committed to providing a platform for these researchers, academicians and professionals for sharing and disseminating their innovative research works and knowledge in the subject of computer science and information technology and stay abreast in their field of research.

The submitted journal manuscripts encounter an initial editorial screen through meticulous peer review by experts in the field before the article is published in the journal. This is performed in order to ensure the article's originality, relevancy, timeliness, readability and overall quality.
